

Continuing professional development

Immunisation & Vaccination Introductory Workshop

Full-day introduction

**For those new to the process of
immunisation & vaccination**

Fully funded

By your CCG

About the workshop

This workshop will provide you with an overview of the aims of immunisation, maintenance of the cold chain, types of vaccines, promoting uptake, new developments, consent/legal issues and anaphylaxis management.

You'll cover the following topics, through group work, taught sessions and work stations:

- The aims of immunisation and promoting uptake
- Vaccine types and new developments
- Maintenance of the cold chain
- Anaphylaxis management
- Consent and legal issues

You will be emailed a pre-course booklet giving links to relevant immunisation and vaccine information, in accordance with the Health Protection Agency recommendations.

Dates

Chelmsford campus
13 September 2017
09:00-16:00
