16th March 2017

Dear Colleagues,

Re Mandate Scheme

This is to inform you that Castle Point and Rochford and Southend CCGs have collaborated together to continue the Clinical Education Service for 2017/2018 and to ensure Out of Hours cover is provided for the protected learning times - Time to Learn.

To continue in the provision of high-quality learning opportunities for primary care staff within the locality, Principal Partners are being encouraged to continue to support the successful mandate scheme which has provided a central reserve of money to support education.

By contributing to the mandate scheme each General Practitioner will ensure that he/she and all employed staff receive certification for all courses attended and places on courses will not be charged. Any courses delivered by e-learning will also be free of charge.

By opting out of the mandate scheme General Practitioner's and his/her staff will be charged an attendance fee on each course and will be asked to contribute between £30.00 to £50.00 per place on each individual course and for e-learning course access.

I attach a form to complete which will generate an invoice for the practice contribution. The cost will be for this learning provision is £175.00 per Principle Partner for this financial year.

Kind regards

Tricia D'Orsi
Chief Nurse
